It is estimated that there are 38,000 idiots in the United States. This means asylums ones. No statistics are given of those loose.

LAST week the duties collected on imports at the San Francisco Custom-house amounted to \$140,920 30.

The crops in Nebraska this year have been enormous, and the State has been fully restored to the prosperity it enjoyed before the grasshopper scourge.

A TRUNK containing \$15,000,000 worth of bonds was stolen from Dodd's express wagon, at the corner of Watts and Canal streets, New York, on Saturday night. One arrest made, but no definite clue.

It is now thought the Nevada County Narrow Gauge Railroad will be completed to Grass Valley by January 1st. Contractor Jas. K. Byrne is pushing it with all possible dispatch during the fine weather.

GOLD is found in large quantities in Canton, Georgia. Mr. Dial is said to be panning out one hundred dollars' worth a day by washing the earth. There is a great deal of excitement about it around Canton.

A DISPATCH from Bremer Haven reports that a bag of dynamite, intended for shipment, with the purpose of exploding while the vessel was at sea, exploded before leaving the wharf, killing 57 persons and wounding 23.

CHOCK WONG, one of the proprietors of a Chinese newspaper published in San Francisco has declared his intention in the United States District Court of becoming a citizen. He is the second Mongolian who has declared his intention to become a citizen of the United States.

A SHORT time since, the three single-turreted monitors Nantucket, Passaic and Wyandotte left League Island for Norfolk, accompanied by six Government ships. The predominating reason assigned is the greater proximity of Norfolk to Cuban waters.

NINETY mechanics and artisans with their families have emigrated from Pennsylvania and settled on Hood river, Oregon, and over three hundred will follow in the Spring. They intend building a college, a woolen mill, a grist mill, and other educational and industrial establishments.

WHILE three boys were playing on Eager street, near Morton alley, Baltimore, on the 20th ultimo, one fell over a garbage box, which in tumbling over threw out a pocketbook containing \$1,200 in greenbacks. The treasure trove was handed to Marshal Gray and the next day Congressman Woodburn claimed the purse, but insisted that when lost, he knew not how, it held \$2,200. None of the boys have appeared to ask a reward.

LOCATION OF THE NEW MINT.—A Washington special says there is no doubt that Dr. Lidderman has decided that if it is desired to establish another Mint solely to coin silver, Indianapolis is the best location, but if to coin both gold and silver, that St. Louis has the best facilities of any Western city. The President is likely to send a message to Congress without making any change in Lidderman's recommendation.

BOUND OVER.—Mr. Kelly, editor of the Silver State, was on Monday bound in the sum of \$500 to appear before the next Grand Jury, if called upon so to do. Doubtless the jury will ignore the whole subject matter, at least we hope so, for if there is anything we dislike it is to see an editor in trouble, and Kelly is too good and jolly a fellow to knowingly commit an infraction of National law.—*Carson Tribune*.

The well-known cattle dealers, Messrs. Phillips & Chandler, have failed, with liabilities amounting to a quarter of a million dollars. Nearly all the stock raisers from Sacramento north are said to be sufferers by the failure.

THE CASE OF PINCHBECK.

A Washington special says it is expected as soon as Dorsey, Sharon, Alcorn and Jones arrive and are firmly established in their seats, that the case of Pinchbeck will be taken up and disposed of. The case has assumed a new phase since the withdrawal of McMillan, and Administration people say that Pinchbeck will receive almost the entire Republican vote of the Senate for his admission. They argue that if he is rejected that Louisiana will be hopelously Democratic and will be as sure for the next Democratic candidate for President as the States of Georgia and Kentucky. Thus his rejection will be throwing away to the Democracy the last but one of the Southern States, and that one is South Carolina. They think Chamberlain means soon to turn over to the Democrats, so that the Democrats will enter the next campaign with the certainty of every State south of Mason and Dixon's line for the candidate. They say the Republican party is on a fair vote justly entitled to South Carolina, Alabama, Florida, Louisiana and Mississippi, but if they sit still and allow matters to go on as they have been, as instanced by the recent case of Mississippi, the Republican party will not have an electoral vote from the South in the next campaign. Hence they intend to make Pinchbeck the beginning of a determined effort to regain what they claim belongs to them at the South.

BLAINE'S VICTORY.

The telegraph announces that ex-Speaker Blaine has introduced a joint resolution amending the Constitution. The amendment proposed is the school question amendment of Blaine, which has already been extensively published and discussed. The resolution was referred to the Judiciary Committee, whom we trust will soon report it back with the recommendation that it pass, and then go through both Houses without a dissenting voice. It is evident to every discerning mind that this question was the main one which decided the late political contests. Newspapers and politicians have endeavored to attribute the results to other causes, but the fact remains, and the people can not be convinced to the contrary, that the denunciations of the public schools by the Roman Catholic newspapers, and by Roman Catholic priests, their demands that a portion of the taxes collected for the education of children should be separated from the common fund, and set apart especially for Roman Catholic schools and Roman Catholic children, and their advice to Roman Catholic citizens to vote the Democratic ticket, all had the effect of awakening the Protestant masses to a sense of the danger which threatened the free institutions of the country, and caused them to unite as one in their defence. And so the question may as well be ended by Congress without further delay.

A Strike at the Justice.

Several of the employees of the Justice mine struck work Monday on account of a reduction of wages announced by the Superintendent of the mine, Jeff McClellan. It is a law of the Miners' Union that all "work by candle light"—that is all underground work—shall be paid for at the rate of \$4 per day. Mr. McClellan proposes to reduce the wages of the bell-ringers, car men, pick-boys and station-tenders to \$3 50, a reduction which the Miners' Union is resolved shall not be made. Tuesday morning a committee from the Gold Hill Miners Union made their appearance at the Justice and inquired for McClellan. They were informed that he was down in the mine, and sent a message to him stating their desire to see him at his earliest convenience. He sent up word, that he would be with them in five minutes. He did not come to time, and although they waited until the five minutes had lengthened into an hour and a half, he did not appear. They then made up their minds that he did not want to see them, and took their departure. They say very resolutely that Mr. McClellan shall not cut down the wages of one man, and that the present reduction is only the entrance of the thin edge of the wedge, which must be resisted to the utmost. About 150 men are employed at the Justice at present.—*Virginia Chronicle*.

OPHIR.—The big pump of the Ophir Mining Company will probably be ready to start up next Friday. The large spur-wheels and other heavy machinery in the shape of gear and wheels are nearly all in place and the engine is about ready to be started up. Water is still being hoisted by means of tanks, worked by the hoisting and donkey engine.

THE MONEY MARKET.

The stringency of the money market is still complained of, but it is generally believed that the finances of the Coast will soon be easier. In connection with this subject the San Francisco Bulletin has the subjoined: We are pleased to note a partial renewal of loans on real estate on the part of the Savings Bank. Since the financial panic in August these banks have done but little business in the way of lending money, except to renew loans. The stringent condition of the market and the great demand for the withdrawal of funds on the part of depositors have made it necessary for the banks to contract outstanding liabilities as much as possible and carry large reserves. It was feared that this condition of things would have to be kept up until after the taxes were paid and the holidays were passed. The appearances for the past few days, however, indicate that the pinch in the market is over, and that the tide has turned. There is certainly a greater degree of confidence among those having money to loan, and this of itself is an important auxiliary. The assurance felt stimulates the movement, and a little money is of great service. However, all new business is at advanced rates; but this is better than to have the money withdrawn entirely from circulation. Considerable private English capital has lately been loaned here on real estate at round rates of interest. A small loan was made a day or two ago at 1 per cent. per month for two years. Most of the Savings Banks are exacting a similar rate from borrowers. Before the panic, the maximum rate for most business of this kind was 10 per cent. per annum. A gentleman connected with one of the leading Savings Banks of this city informed us that while they were loaning at 1 per cent. he knew of parties willing to pay 1 1/2 to 1 3/4 per cent. per month for a year ahead. This looks as though there was to be a good demand for money for some time. The Nevada Bank has just made a loan of \$500,000 on interior real estate.

CONSOLIDATED VIRGINIA.—From the Enterprise of yesterday we learn that the Consolidated Virginia commenced hoisting ore. At 2 o'clock Tuesday morning thirty tons had been hoisted and dumped. Carpenters are still busy. The cars from the lower levels, when they made their first appearance on the surface Tuesday morning, looked as though they had been on a big drunk. They were very rusty and very stiff in all their joints. When hoisted to the top of the shaft and shoved from the cage to the platform they almost seemed to be aware of their dissipated appearance and ashamed to be hauled up into the light of day to be gazed upon and laughed at by the men of the upper world. So long had they lain in the drifts below, in the dark and damp underneath the ground, that like Old Rip Van Winkle, they had almost lost the power of locomotion. When yanked off the cage and onto the iron floor surrounding the shaft their wheels refused to revolve; they balked and balked. When urged they slid along the floor, behaving worse than a Chinaman's hog. They were not much to blame, however, as during their nap in the regions below their wheels had rusted to their axles. After being brought to the surface the cars were soon cured of their cramps and rheumatism. They were cleared of rust and had all of their joints and axles oiled, when they rolled away as glibly and smoothly as though they had not been off duty for a single moment.

A chime of whistles now warns the miner of the "Con. Va." when a change of shifts is in order—out a single whistle as before the fire. There is now used a gang of four whistles of various sizes, all of which are sounded by the same blast of steam and the sound thus produced is not likely to be mistaken for that of any other whistle on the Comstock range. When this chime of whistles was turned loose yesterday morning not a few persons thought that a fire alarm was being sounded and that it was a very urgent call.

PANAMINT LOOKING UP.—The Los Angeles Express of recent date states: E. H. Boyd returned from his trip to Panamint and Darwin today. Mr. Boyd informs us that that region is coming out grandly. Mr. Masick, the superintendent of Jones' Surprise Mill and Water Company's interests, is working his mills up to capacity on hundred dollar ore. As to Darwin, the place is simply taking prodigious strides ahead. The opinion prevails now among well informed miners that Inyo county is the biggest thing in the way of mining on the continent. This fact will undoubtedly give a powerful impetus to the immediate building of the Los Angeles and Independence Railway. Senator Jones is being asked remuneration for his large investments in that section, and for his patience in waiting for their out crop.

It is rumored that the project for increasing the stock of the Consolidated Virginia is under discussion by its managers. The increase was voted nearly a year ago by the stockholders, but was abandoned at that time.

NEVADA STATE NEWS.

At the annual meeting of the Mexican Mining Company the old Trustees were re-elected, headed by C. L. Weller, President, and J. D. Fry, Vice President.

It is stated that the Yellow Jacket capital stock is to be increased.

Senator Jones has selected the site for an elegant Summer residence at Santa Monica.

It is the intention of Manager John Piper to erect a new Opera House in Virginia at no distant day. It will not, however, be built on the old site, but on the corner of B and Union streets—a much more eligible location for a theatre. It is to be first-class in all of its appointments and in every way superior to the old Opera House.

The District Attorney of Carson has been instructed to draft an ordinance repealing the licensing of livery houses and including a clause prohibiting the carrying on of such institutions within the city limits.

The verdict in the Deutschland case is in substance that some people were drowned; that because of bad weather the master of the ship lost his reckoning, and the jury regret the ship was not provided with better appliance for saving life.

Wreck of the Emily Farnum.

The San Francisco Bulletin of the 14th says:

Particulars of the disaster which overtook the Emily Farnum on her voyage to Departure Bay, from this port, have just come to hand. The unfortunate ship sailed hence on the 12th ultimo, with a cargo of railroad iron. She had fine weather until the 16th, when it blew quite a gale from the southeast, which lasted 24 hours. The wind gradually hauled into the south and west. On the morning of the 18th the ship broached to and lost canvas. She then labored heavily and shifted her cargo. New sails were bent on as fast as possible, the weather continuing very squally with snow storms. On the night of the 18th, at 10 o'clock, the storm increased again to a brisk gale with heavy snow squalls. At midnight land was reported ahead, and an effort was made to stay the ship but she would not stay. They then tried to wear her, but found it too late, and again hauled the ship to the wind, trying to weather Destruction Island, but the heavy sea swept the vessel down on the rocks, and at 12:30 she struck. The port anchor was then let go and the main and mizzen masts cut away. One of the large boats on the weather side, after being prepared for lowering, was stove in by the heavy sea running. An attempt was then made to land the small boats, but they were stove in on the main deck. The foremast was then cut away, and fell so as to form a bridge from the ship to the rocks. All the light provisions accessible, and the chronometer, were then carried from the vessel to the rocks over this frail bridge. An hour later the ship parted in the middle. The top of the afterhouse was washed on the rocks to the leeward of the wreck, while the heavy sea swept away everything that had been previously deposited there for safety. The chief officer and four men who had taken refuge on the rocks were also swept into the sea. The former was subsequently rescued from a piece of floating wreck; two of the men swam ashore, and two of them—John Hoaglin, a native of Sweden, and the Chinese steward—were drowned. The remaining fourteen clung to the afterhouse, where they remained until morning. With the aid of a raft made from pieces of the wreck they all managed to get safely on the island. A large fire which they built attracted the attention of the Indians on the mainland, who came to their assistance in canoes. The entire party, including the Indians, were weather bound on the island for three days, subsisting on four bags of flour and a few cabbage heads saved from the wreck. They footed it to Quenalt in company with the Indians, and from that place proceeded to Gray's Harbor. They subsequently reached Astoria, and from there were brought down to the city on the steamer Ajax, which arrived here last Saturday.

Buying.....87 1/2 Selling.....87 1/2
Gold in New York yesterday.....114 1/2
THE CONGREGATIONAL PARTY.—We suppose the Congregational entertainment at the Reno Opera House this evening will gather together a large crowd. The ladies who have been working this matter up deserve great credit for their unceasing labors, and deserve a good, big crowd for a partial reward, and we predict, if the weather be good, that their liveliest anticipations will be fully realized. Particular attention has been paid to the getting up of suitable tableaux for the occasion, and in fact, everything that can be done to make this the entertainment of the season. Everybody ought to go and we suppose they will. The proceeds are to be devoted to procuring Christmas presents for the Sunday School children.

OPERA BOUFFE.—The Lenton-Ware Combination and Comic Opera Troupe, will give a choice entertainment to the people of Reno to-morrow and Saturday evenings. The entertainment will consist of humorous ballads, character sketches, burlesque opera, etc., etc. The entertainments are favorably commented upon by the press throughout the county. Go and see them.

AN ANSWER.—District Attorney Cossitt informs us he is constantly receiving letters and applications from delinquent tax payers requesting him not to bring suit. He takes this occasion to inform them that he will commence in a few days.

CLUB PARTY.—The Reno Library Club party on Tuesday evening was largely attended, but select and fashionable. The Club will give a sheet and pillow slip party on New Year's Eve, which promises to be full of enjoyment.

LAST WEEK.—This is the last week of school for the term, and on Friday, we anticipate the exercises will be unusually interesting. We hope to see parents turn out.

Local Brevities.

Indian Summer. Bully. Travel brisk over the railroads now. Christmas nearly here—only a few days.

Scarlet fever in town. Several sick with it. Stevenson, the Centennial Martyr, feels uneasy.

How is the Fire Fund Subscription Committee doing? Shows and parties without end, and still they come.

Carson rejoices over a anti-Polygamy Mormon Church.

John Jacks and the Firmin Sisters are "doing" the eastern part of the State.

Those indebted to the JOURNAL know what to do to ease their conscience.

The napkin rings, made out of Con. Poe bullion, by S. N. Davidson, are very neat.

Boss Tweed is still among the missing. We are not looking for him out this way.

Everybody busy thinking what kind of Christmas presents to give their friends.

Look over our advertising columns if you would know where to buy the best and cheapest.

Picche has not caught the "pull-back" fever yet. Behind the girl—age, we should say.

With plenty of wood, a hunk of bacon, and a bottle handy anybody could be happy now.

Gov. Irwin has approved the bill prohibiting the change of school text books. Good for him.

The last joke is "What relation is profanity to crime?" Answer: "First cousin." Fan us somebody.

Silver in plenty, but gold scarce—so much so that a Chinaman will pay three bits to get a \$20 piece.

O'Hara's furnace is doing splendidly. Will Fryer accept his \$1,000 challenge? is the question now.

It is not the correct thing for a gentleman to wink at a lady. It is always the lady's place to wink first.

It freezes regularly every night now. But just wait until the Truckee river freezes over, and wont we have fun skating?

The members of the Reno Library and Social Club are desired to meet this evening at Judge Gilson's office, at 7:30 o'clock.

A new custom has just been introduced, and that is to issue wedding cards bearing the words "No Presents." Good idea, that.

Because it takes twenty-four hour for a letter to get from Virginia to Carson, they are mad. But then some people are awful hard to please.

Cheer up old maids! It is calculated that when a woman turns thirty, unmarried, she still has left 15 1/2 chances out of 100 for getting a husband. This does not apply to Reno, however, for we have none of those bipeds.

Now is the time when the wise matron skirmisheth about to find the cheapest place to buy Christmas presents before the crowd comes pushing along. After marriages and deaths she readeth daily the advertisements in the papers.

BULLION.—Yesterday three bars of bullion valued at \$800, were sent in from the Consolidated Poe mine. Another brick will be sent down to-day, upon the arrival of which they are to be sent below. Supt. Knox thinks that in a short time the O'Hara furnace will yield \$1,000 a day. As soon as the mine gets deeper, into its better rock, the figures will be something handsome.

ATTENTION.—All members of Amity Lodge, No. 8, K. of P. are requested to attend their next regular meeting as business of importance will be brought before them. By order of J. F. MYERS, C. C. O. H. STODDARD, K. of R. & S.

MEETING.—The members of the Female Seminary Committee are all requested to meet at Manning & Duck's store at 7 o'clock this evening. Business of importance will come before them.

POLICE COURT.—Before Judge Gilson, on Tuesday, Peter B. Williamson, accused of embezzlement from R. C. Johnson, was acquitted, and costs taxed to the complainant.

SPECIAL NOTICES.

A GOOD PLACE TO BUY RUBBERS.—Those in need of rubber boots would do well to call and examine John Sunderland's stock before purchasing elsewhere. Look at his prices: Hip boots for \$5 00; knee boots for \$4 00; boy's knee rubbers, \$3 00; youth's knee rubbers, \$2 00; ladies' knee rubbers, \$1 50; men's Arctic, \$1 50; ladies' Arctic \$1 25; ladies' gum shoes, 75c; children's, 50c; and everything else in proportion. A full and complete stock of boots and shoes always on hand. First class boots and shoes made to order. Repairing neatly done.

Mr. Chas. Thurston will hereafter have charge of the town route of the JOURNAL, delivering the paper to subscribers, and to him alone will they be responsible for payment from and after this date. All persons owing to the present time will please call at this office and settle their accounts. Mr. Thurston will deliver the paper promptly, and no one will have cause for complaint on this score. If you wish the JOURNAL at your place of business or residence give him your order.

DR. GROVER is having remarkable success in surgical and general practice, with a constantly increasing business. He is not confined to any particular method, system, etc., but is governed by the knowledge accumulated from careful study, and an extensive practice of over thirty years.

DRESSMAKING.—The Misses Vance are now located on Virginia street, next door to the photo-graph gallery. They will receive at their dress-making establishment and make to order in the latest styles, all kinds of plain and fancy sewing.

H. M. VANCE is happy to inform the public that he has leased the Lake House, Reno, where he will be pleased to wait upon the traveling public, hoping to receive a share of their patronage.

WASHING.—Su Lee & Co. are prepared to wash and iron all kinds of goods at short notice, in a satisfactory manner. Give us a fair trial in all we ask. Washing called for and returned.

TO RENT.—A nice furnished room to let, with use of parlor. Suitable for a gentleman and wife, or a single person. Inquire at Toombs & Co's store.

DR. A. B. SPINNEY. Two Occasional patients. I have known and treated the Montreal (C. P. R. R.) and the Peavine (V. & T. R. R.) for many years, and I have seen the results of the treatment of many cases of the same kind. I have seen the results of the treatment of many cases of the same kind. I have seen the results of the treatment of many cases of the same kind.

COME AND BE HEALED! I have seen the results of the treatment of many cases of the same kind. I have seen the results of the treatment of many cases of the same kind. I have seen the results of the treatment of many cases of the same kind.

YOUNG MEN! Who may be suffering from the effects of youthful folly or bad action, will do well to visit themselves of this. The great, at least ever last, of the altar of suffering humanity. DR. SPINNEY will guarantee to cure, if he cannot, a dollar for every case of seminal weakness or private disease of any kind or character which he undertakes to cure. He would therefore, say to the unfortunate sufferer who may read this notice, that you are treating upon dangerous ground, and that you are in a position to lose your health, your life, and your property, if you do not seek relief at once. You may be in the first stage of the disease, and you are approaching the last. If you are in the last stage, you are in a position to lose your health, your life, and your property, if you do not seek relief at once. You may be in the first stage of the disease, and you are approaching the last.

MIDDLE-AGED MEN! There are many of the age of thirty to sixty who are troubled with too frequent visitations of the bladder, often accompanied by a slight smarting or burning sensation, and a weakening of the system in a manner the patient cannot account for; or, on examining the urine, he finds aropy sediment will often be found, and sometimes small particles of albumen will appear, or the color will be of a dark and turbid appearance. There are many more varieties of this difficulty, ignorant of the cause, which is the second stage of seminal weakness. Dr. K. will guarantee a perfect cure in all such cases, and a healthy restoration of the genital-urinary organs.
